# NEET 2017 PAPER ANALYSIS

---

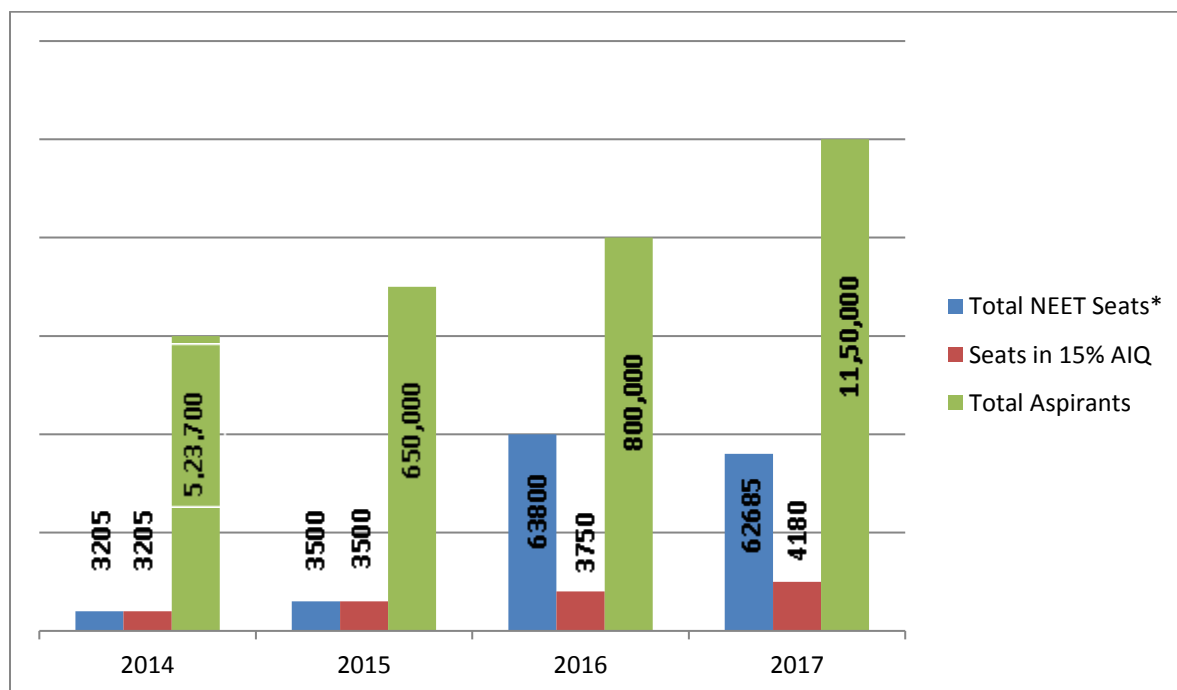

## NEET 2017 Paper Analysis Motion

National Eligibility cum Entrance Test (NEET-2017) paper was held on 7th May, 2017 across various centers in India. Unlike previous year, NEET 2017 was held in only one phase covering all the topics. Physics, Chemistry and Biology are the sections along which the paper can be divided, with Biology further divided into Zoology and Botany. Physics and Chemistry each carry a total of 45 questions, and Biology 90 questions. Each correct answer fetches 4 marks, with a penalty of 1 mark for wrong answer.

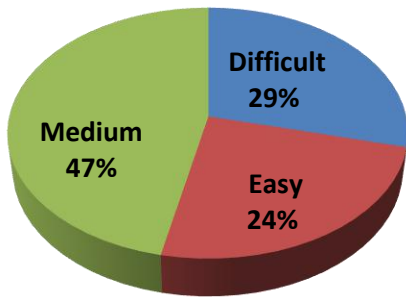

Overall, the paper can be considered slightly more difficult compared to the NEET 2016. According to Motion, both Chemistry and Physics were moderately lengthy but easier while in Biology, Botany was the bulk of the paper and equally distributed between class 11<sup>th</sup> and 12<sup>th</sup>. Compared to Zoology, Botany was relatively easy. The detailed subject wise paper analysis with expected cut-off is available below.

### NEET / AIPMT Comparison across 2014 - 2017

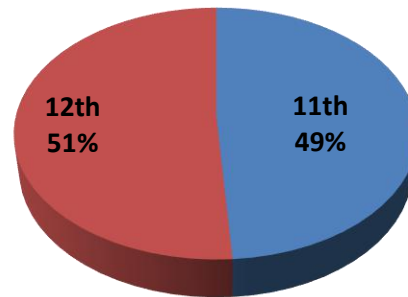

## Physics

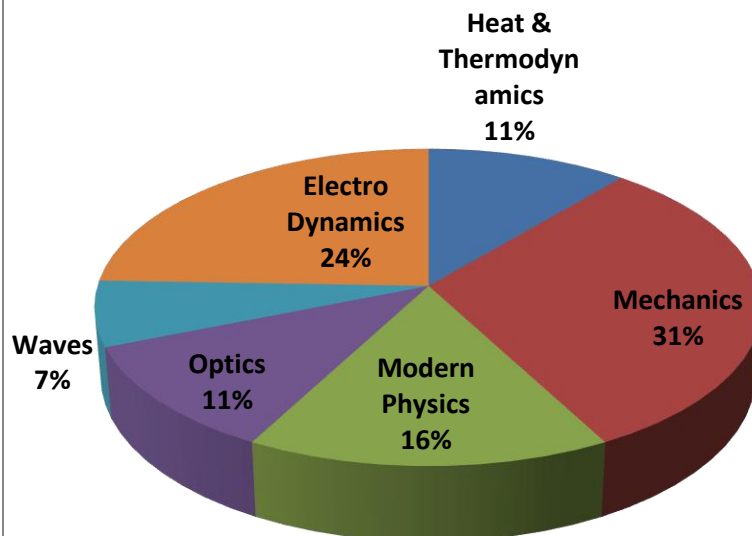

### Physics difficulty level distribution

### Physics class wise distribution

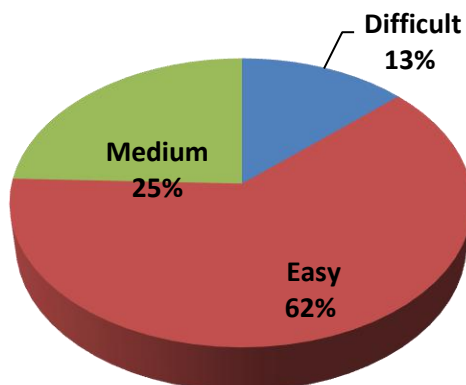

### Physics topic wise distribution

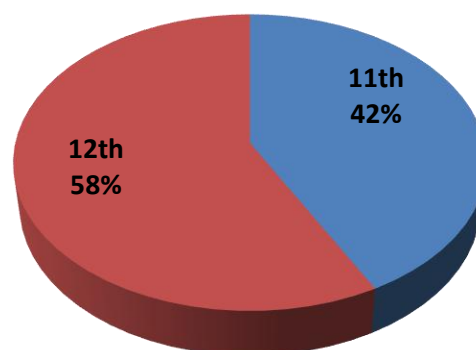

## Chemistry

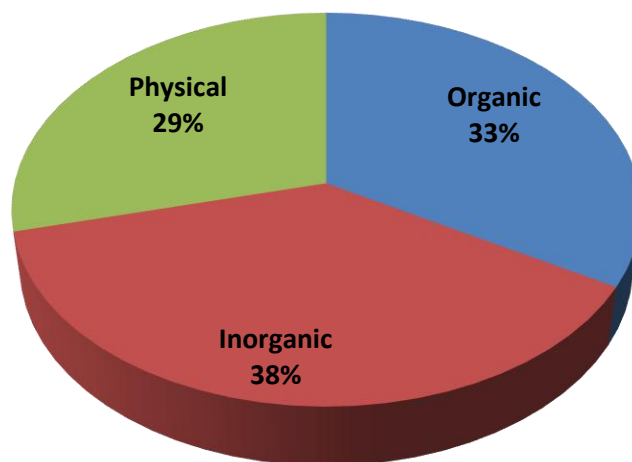

### Chemistry difficulty level distribution

### Chemistry class wise distribution

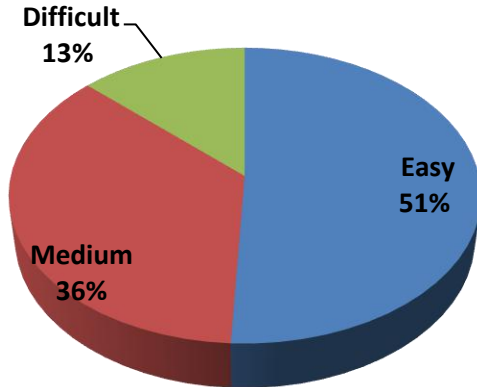

### Chemistry topic wise distribution

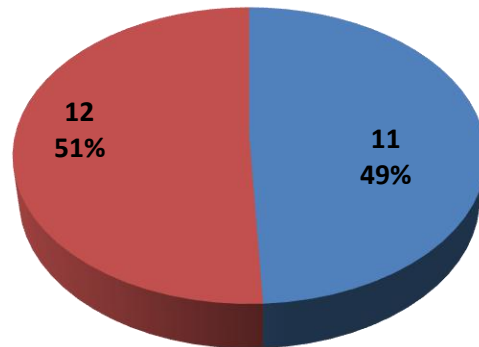

## Botany

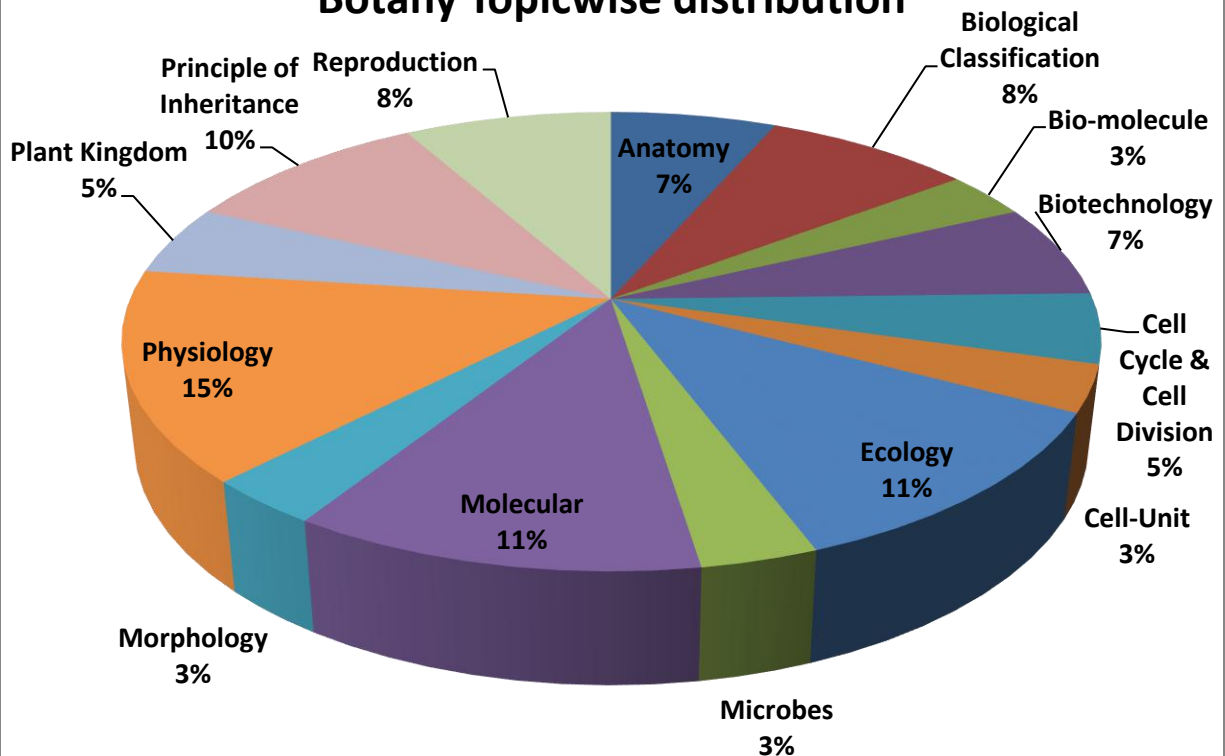

### Botany difficulty level distribution

### Botany class wise distribution

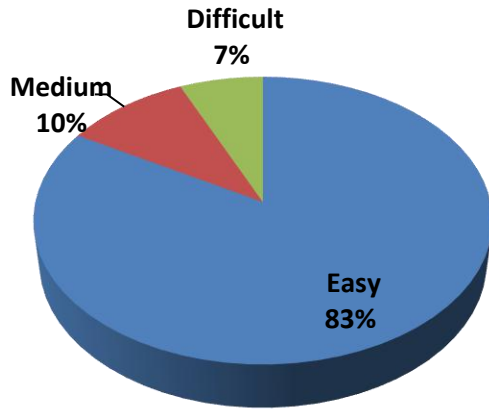

### Botany Topicwise distribution

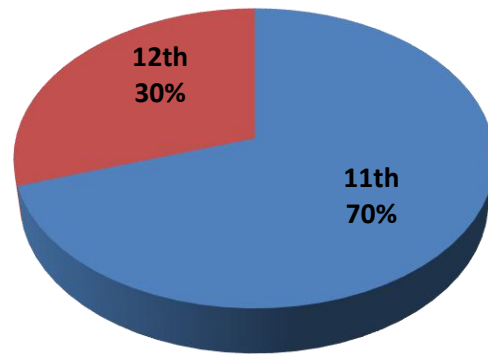

Zoology

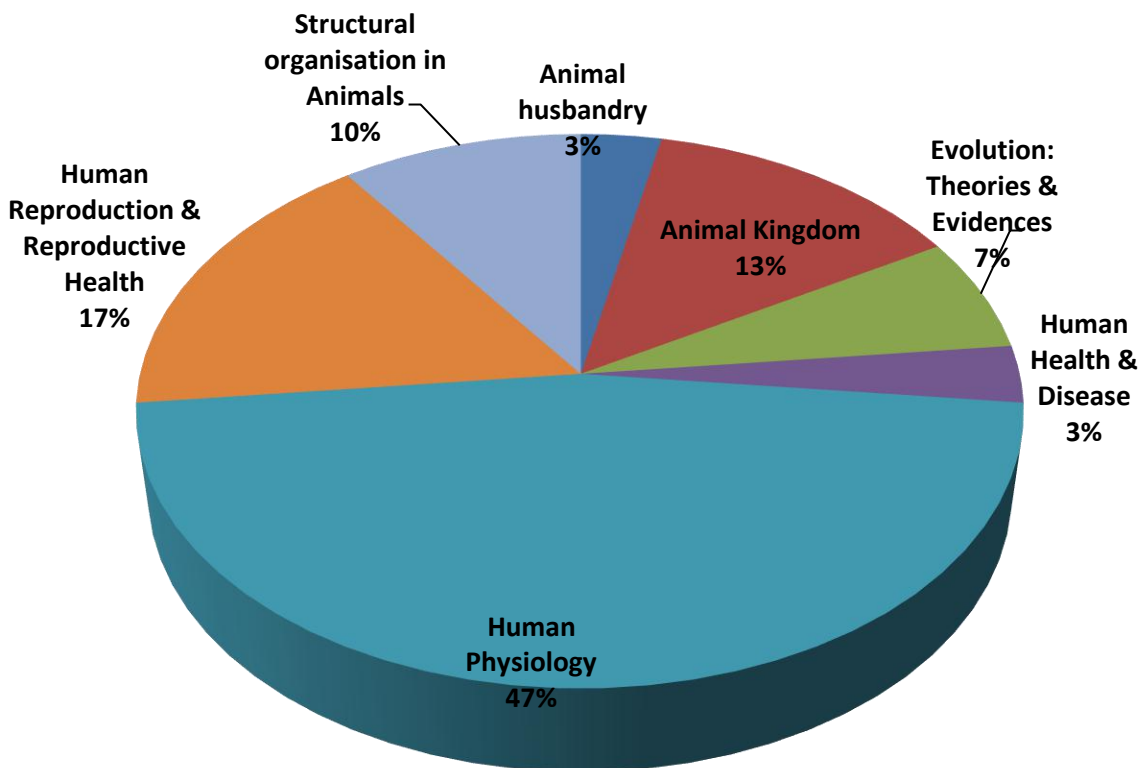

**Zoology difficulty level distribution**

**Zoology class wise distribution**

**Zoology Topicwise distribution**

## Expected cutoff along with previous year cutoffs
